

Air Dryer and Accessories

Anest Iwata Motherson

Anest Iwata Motherson (AIM) is a joint venture between Anest Iwata Corporation, Japan, and Motherson Group, India. Anest Iwata Corporation is one of the global leaders in Air Compressors and Vacuum Pumps with more than 9 decades of inspiring history of technological excellence.

Anest Iwata Motherson is committed to delighting its customers by ensuring the supply of the best quality products, supported with effective after-sales services at optimum value. The company has two state-of-the-art manufacturing facilities and a wide network of sales and service centers spread across India.

Salient features

 Access to all parts by single cover removal

· Easy to maintain

Excellent performance

Note:

- Data for the dryers above 1100 cfm are available on request
- FAD based on 45°C inlet temperature and 40°C ambient temperature at 7kg/cm² operating pressure and 3°C to 7°C pressure dew point
- · Water cooled models starting from 550 cfm and above are available on request
- Due to continuous engineering improvements, technical specifications are subject to change without prior notice.

Air Filter Accessory

- Easy Replaceable filter element
 - Robust Construction
 - Modular Design
 - Reliable

Purification of compressed air is needed because the air we breathe carries contaminants. Airborne particles, water, microbes and chemical gases enter compressors and in a compressed state these contaminants become concentrated and more destructive. In the compressed air system, hard particles assault equipment and piping. The result is damage to the system and generation of more particles. Examples of particles found in a compressed air system include desiccant dust, rust, pipe scale, metal oxides and dirt, which can be eliminated by applying proper filtration system.
